1 INTRODUCTION

1.1 Basis for Design and Landscape Guidelines

These Design and Landscape Guidelines (the " **Guidelines**") are intended to assist Owners living in the Denver Connection West community (the "**Community**"). Pursuant to the Declaration of Covenants, Conditions and Restrictions of Denver Connection West ("**Declaration**"), recorded at Reception No. 2017095170 in the City & County of Denver. The Denver Connection West Metropolitan District ("**District**") is authorized to adopt Design and Landscape Guidelines for the Community.

1.2 Definitions

All capitalized words and phrases used in these Rules shall have the meaning provided in the Declaration unless otherwise defined herein.

1.3 Contents of Rules

In addition to the introductory material, these Guidelines contain (A) a summary of procedures for obtaining approval from the Architectural Review Committee ("ARC") (see Section 2); and (B) a listing of specific types of improvements that Owners might wish to make with specific information as to each of these types of improvements (see Section 3).

1.4 Architectural Review Committee or Representative

The ARC consists of persons, representatives or a committee appointed by the Denver Connection West Metropolitan District Board of Directors to review requests for approval of architectural, landscaping improvements or site changes.

1.5 ARC Contact Information

The contact information of the ARC, persons, committee or representative authorized to administer the architectural review process is:

COMPANY NAME	OFFICE	FAX	E-MAIL
MSI – HOA Mannagement	303-420-4433	303-420-6611	info@msihoa.com

1.6 Effect of Declaration

The Declaration governs the Community. Each Owner should review and become familiar with the Declaration. Nothing in these Guidelines supersedes or alters the provisions or requirements of the Declaration and, if there is any conflict or inconsistency, the Declaration will control.

1.7 Effect of Governmental and Other Regulations

Use of property within the Community and any Improvements must comply with any applicable building codes and other governmental requirements and regulations. Owners are encouraged to contact the City and County of Denver for further information and requirements for Improvements they wish to make.

APPROVAL BY THE ARC DOES NOT CONSTITUTE ASSURANCE THAT IMPROVEMENTS COMPLY WITH APPLICABLE GOVERNMENTAL REQUIREMENTS OR REGULATIONS OR THAT A PERMIT OR APPROVALS ARE NOT ALSO REQUIRED FROM APPLICABLE GOVERNMENTAL BODIES.

1.8 Interference with Utilities

In making Improvements to property, Owners are responsible for locating all water, sewer, gas, electrical, cable television, or other utility lines or easements. Owners should not construct any Improvements over such easements without the consent of the utility involved, and Owners will be responsible for any damage to any utility lines. All underground utility lines and easements can be located by contacting:

Utility Notification Center of Colorado
1-800-922-1987 or 811

1.9 Goal of Guidelines

Compliance with these Guidelines and the provisions of the Declaration will help preserve the inherent architectural and aesthetic quality of the Community. It is the responsibility of the ARC to ensure that all proposed Improvements meet or exceed the requirements of these Guidelines and to promote the highest quality design for the neighborhood. It is important that Improvements to property be made in harmony with and not detrimental to the rest of the Community. A spirit of cooperation with the ARC and neighbors will go far in creating an optimum environment, which will benefit all Owners. By following these Guidelines and obtaining prior written approval for Improvements to property from the ARC, Owners will be protecting their financial investment and will help insure that Improvements to property are compatible with standards established for the Community. If a question ever arises as to the correct interpretation of any terms, phrases or language contained in these Guidelines, the ARC's interpretation shall be final and binding.

2 PROCEDURES FOR ARC APPROVAL

2.1 General

The procedures set forth in this Article 2 are intended to clarify the terms, provisions and requirements of Article 2 of the Declaration. In the event of any conflict between these Guidelines and the Declaration, the terms of Article 2 in the Declaration shall control. As indicated in Section 3 of these Guidelines, there are some cases in which advance written approval of the ARC is not required if the Guidelines with respect to that specific type of

Improvement are followed. In a few cases, as indicated in Section 3, a specific type of Improvement is not permitted under any circumstances. In all other cases, including Improvements not included in Section 3, advance, or prior written approval by the ARC is required before an Improvement to property is commenced.

2.2 Drawings or Plans

Owners are required to submit to the ARC a completed Architectural Review Request Form ("ARR"), which forms are available from the person or entity listed in Section 1.5, and complete plans and specifications, in duplicate, (said plans and specifications to show exterior design, height, materials, color, location of the structure or addition to the structure, plotted horizontally and vertically, location and size of driveways, general plan of landscaping, fencing, walls, windbreaks and grading plan, as well as such other materials and information as may be required) prior to commencement of work on any Improvement to property. In most cases, the materials to be submitted will not have to be professionally prepared by an architect, a landscape architect, or draftsman, and a simple drawing with dimensions and description will be sufficient. In the case of major improvements, such as room additions, structural changes or accessory building construction, detailed plans and specifications, prepared by a licensed architect, may be required. Whether done by the Owner, or professionally, the following guidelines should be followed in preparing drawings or plans:

A. The drawing or plan should be done to scale and shall depict the property lines of your Lot and the outside boundary lines of the home as located on the Lot. If you have a copy of an improvement survey of your Lot obtained when you purchased it, this survey would be an excellent base from which to start.

B. Existing Improvements, in addition to your home, should be shown on the drawing or plan and identified or labeled. Such existing Improvements include driveways, walks, decks, trees, shrubs, fences, etc. The proposed Improvements should be shown on the plan and labeled. Either on the plan or on an attachment, there should be a brief description of the proposed Improvement, including the materials to be used and the colors. For Example: Redwood deck, ten (10) feet by twelve (12) feet with two inch by four inch (2"x4") decking and natural stain.

C. The plan or drawing and other materials should include the name of the Owner, the address of the home, the lot, block and filing number of the Lot, and the e-mail address and telephone number where the Owner can be reached.

D. The proposed Improvements must take into consideration the easements, building location restrictions and sight distance limitations at intersections.

E. Owners should be aware that many Improvements require a permit from the City and County of Denver or other governmental entity. The ARC reserves the right to require a copy of such permit as a condition of its approval.

F. In some instances, elevation drawings of the proposed Improvement will be required. The elevation drawings should indicate materials.

G. Photographs of existing conditions and of proposed materials and colors are encouraged to be included, and are helpful to convey the intended design, but should not be used solely to describe the proposed changes.

2.3 Submission of Drawings and Plans

Two copies of the drawing or plans (minimum acceptable size 8.5" x 11") must be submitted to the ARC along with a completed ARR. Color photographs, brochures, paint swatches, etc. will help expedite the approval process. Specific dimensions and locations are required.

Any costs incurred by the ARC for review of submittals shall be borne by the Owner and shall be payable prior to final approval. Any reasonable engineering consultant fees or other fees incurred by the ARC in reviewing any submission will be assessed to the Owner requesting approval of the submission.

2.4 Action by ARC

The ARC will meet as required to review plans submitted for approval. The ARC may require submission of additional information or material, and the request will be deemed denied until all required information and materials have been submitted. The ARC will act upon all requests in writing within forty-five (45) days after the complete submission of plans, specifications, and other materials and information as requested by the ARC. If the ARC fails to review and approve in writing (which may be with conditions and/or requirements) or disapprove, a request for architectural approval within forty-five (45) days after the complete submission of the plans, specifications, materials and other information with respect thereto, such request is deemed approved by the ARC.

2.5 Revisions and Additions to Approved Plans

Any revisions and/or additions to approved plans made by the Owner or as required by any governmental agency, must be re-submitted for approval by the ARC. The revised plans must follow the requirements as outlined above.

2.6 Completion of Work

After approval (which may be with conditions and/or requirements) of any proposed Improvement by the ARC, the proposed Improvement shall be completed and constructed

as promptly and diligently as possible, and in complete conformity with all conditions and requirements of the approval. Failure to complete the proposed Improvement within one year from the date of the approval or such other date as may be set forth in the approval or as set forth in the Declaration (the "**Completion Deadline**"), shall constitute noncompliance; provided, however, that the ARC may grant extensions of time to individual Owners for completion of any proposed Improvements, either (a) at the time of initial approval of such Improvements, or (b) upon the request of any Owner, provided such request is delivered to the ARC in writing and the Owner is diligently prosecuting completion of the subject Improvements or other good cause exists at the time such request is made.

2.7 Requirements for Initial Installation of Backyard Landscaping

Backyard and/or Sideyard landscaping not installed by the Builder shall be completed within (9) months after initial conveyance of the property to the owner, with consideration given to planting seasons. Should an extension be foreseen due to time of year, written notice must be made to the ARC (Architectural Review Committee) prior to the 9 month expiration, at which time; the ARC will issue a new time requirement to the owner, but in no case later than 12 months after conveyance.

Two copies of the drawing or plans (minimum acceptable size 8.5" x 11") must be submitted to the ARC along with a completed ARR prior to installation of backyard sideyard landscaping and fencing. The Owner should ensure submittal of these plans will allow for the review period of up-to forty five (45) days for approval in accordance with the deadline for installation. Though an ARR (Architectural Review Request) may have been submitted, if it has not been approved and the installation completed by the deadline, the property may be sited for non-compliance.

2.8 Inspection of Work

The ARC, or its duly authorized representative, shall have the right to inspect any Improvement at any time, including prior to or after completion, in order to determine whether or not the proposed Improvement is being completed or has been completed in compliance with the approval granted pursuant to this Section.

2.9 Notice of Non-Compliance

If, as a result of inspections or otherwise, the ARC determines that any Improvement has been done without obtaining all required approvals (which may be with conditions and/or requirements), or was not done in substantial compliance with the approval that was granted, or has not been completed by the Completion Deadline, subject to any extensions of time granted pursuant to Section 2.6 hereof, then the ARC shall notify the District, and the District shall then notify the applicant in writing of the non-compliance (the "Notice of Non-Compliance"). The Notice of Non-Compliance shall specify the particulars of the non-compliance.

2.10 Correction of Non-Compliance

If the ARC determines that non-compliance exists, the Person responsible for such non-compliance shall remedy or remove the same within not more than forty-five (45) days from the date of receipt of the Notice of Non-Compliance. If such Person does not comply with the ruling within such period, the ARC shall notify the District, and the District may, at its option and if allowed by applicable law, record a notice of non-compliance against the Lot on which the non-compliance exists, may impose fines, penalties and interest, may remove the non-complying Improvement, or may otherwise remedy the non-compliance in accordance with the Declaration and applicable law. The Person responsible for such non-compliance shall reimburse the District, upon demand, for all costs and expenses, as well as anticipated costs and expenses, with respect thereto.

2.11 Amendment

These Guidelines may at any time, from time to time, be added to, deleted from, repealed, amended, and modified, reenacted, or otherwise changed by the ARC, with the approval of the Person authorized to appoint the ARC, as changing conditions and/or priorities dictate.

2.12 Questions

If you have any questions about the foregoing procedures, feel free to call the ARC at the phone number and address listed in the Section 1.5 of these Rules.

3 SPECIFIC TYPES OF IMPROVEMENTS / SITE RESTRICTIONS

3.1 General

The following is a listing, in alphabetical order, of a wide variety of specific types of Improvements which Owners typically consider installing, with pertinent information as to each. Unless otherwise specifically stated, drawings or plans for a proposed Improvement must be submitted to the ARC and written approval of the ARC obtained before the Improvements are made. In some cases, where it is specifically so noted, an Owner may proceed with the Improvements without advance approval if the Owner follows the stated guideline. In some cases, where specifically stated, some types of Improvements are prohibited. ARC review and approval is required on any external items not be listed below.

3.1.1 Variances

Approval of any proposed plans by the granting of a variance from compliance with any of the provisions of these Guidelines is at the sole discretion of the ARC when circumstances such as topography, natural obstructions, hardship, aesthetic or environmental considerations may require.

3.1.2 No Unsightliness

All unsightly conditions, structures, facilities, equipment, and objects, including snow removal equipment and garden or maintenance equipment, when not in actual use, must be enclosed within a structure.

3.1.3 Waivers; No Precedent

The approval or consent of the ARC to any application for approval shall not be deemed to constitute a waiver of any right to withhold or deny approval or consent as to any application or other matters whatsoever, as to which approval or consent may subsequently or additionally be required. Nor shall any such approval or consent be deemed to constitute a precedent in any other matter.

3.1.4 Liability

The ARC and the members thereof shall not be liable in damages to any person submitting requests for approval or to any approval, or failure to approve or disapprove in regard to any matter within its jurisdiction. The ARC shall not bear any responsibility for ensuring structural integrity or soundness of approved construction or modifications, or for ensuring compliance with building codes and other governmental requirements. The ARC will not make any investigation into title, ownership, easements, rights-of-way, or other rights appurtenant to property with respect to architectural requests and shall not be liable for any disputes relating to the same.

3.2 Accessory Buildings

No storage sheds or accessory buildings are permitted on Lots; approval will not be granted.

A. A playhouse or play structure shall not be considered an accessory building. However, existing setbacks required of the home must be observed when placing playhouses. A copy of the home's plot plan filed with the location of the proposed accessory building is required with the ARR.

Installation of Permitted Antennas shall not require the approval of the ARC.

A. All Permitted Antennas shall be installed with emphasis on being as unobtrusive as possible to the Community. To the extent that reception is not substantially degraded or costs unreasonably increased, all Permitted Antennas shall be screened from view from any street and nearby Lots to the maximum extent possible, and placement shall be made in the following order of preference:

The ARC may require a report from a drainage engineer as part of landscaping or improvement plan approval. Landscaping and all drainage from downspouts off the house should conform to the established drainage pattern. Sump pump drainage should be vented a reasonable distance from the property
